

MATERIAL CERTIFICATION

JSP certifies that all ARPRO[®] Expanded Polypropylene (EPP) Bead Foam Products contain no *Chlorofluorocarbons (CFC's)*, *Hydrochlorofluorocarbons (HCFC's)*, *Hydrocarbons (HC's)*, or *Volatile Organic Compounds (VOC's)* including *Semi-Volatile Organic Compounds (SVOC's)* and *Polycyclic Aromatic Hydrocarbons (PAH's)*, nor do they contain any other ozone depleting substances¹. All ARPRO[®] Expanded Polypropylene (EPP) Bead Foam Products are expanded using a non-flammable inert gas blowing agent, and do not contain any residual VOC's or Flammable Compounds.

This certification applies to all products molded with ARPRO[®] Expanded Polypropylene (EPP) Bead Foam material in accordance with the JSP's established manufacturing process standards and procedures.
